Low Corn King Wide Spread From a Narrow Box

THE Low Corn King is the real spreader success of the year. At the San Francisco Exposition, the Low Corn King won a Grand Prize, the highest possible award.

You want a spreader that is narrow; not clumsy, wide, and hard to handle. You want it to pass through tight places when necessary, to go in barn doorways for easy loading, narrow for easy handling in your fields. Still, you want a real wide-spreading spreader, that will cover a double strip evenly, so as to cut in half your unloading time and traveling distance.

Here is the answer: The Low Corn King has a box only 45 inches wide, yet it spreads the manure in a finely pulverized strip 8 feet wide or better. Come in and see for yourself. You cannot be disappointed.

Although the price of fruit has been extremely high this season, Yale housewives have filled every fruit jar and then have bought many new ones, as the merchants testify. They could not keep enough on hand and none were to be found in the city. We don't know how many have been sold, but we estimate that the fruit shelves are well filled for the winter's consumption.

Just ask your wife if she doesn't want a nice NEW RANGE.

She won't say "No."

Then let her have the Range she wants. She sees that you get three square meals a day and you certainly ought to give her a modern, labor-and-perspiration-saving Range once in a life time. Then you can't complain of the bread; the pie crust won't be soggy and the whole family will be healthful and happy--especially your wife. Our Ranges are best, they stand the test.
